# ADDIS ABABA FULL DAY CITY TOUR

## Addis Full day sightseeing

Mount Entoto will be a commencing of your city tour. It is a historical place where Emperor Menelik II resided and built his palace when he came from Ankober and founded Addis Ababa. It is considered a sacred mountain and has many monasteries. It is situated at an altitude of between 2,600 and 3,100 meters.

You will have a magnificent view of the city. Then, you will drive to the National Museum. The museum houses the nation's artistic treasures as well as many of the most precious archaeological finds such as the fossilized remains of early hominids, the most famous of which is "Lucy," the partial skeleton of a specimen of *Australopithecus afarensis*. The well-known Lucy is said to be 3.2 million years old.

After visiting the museum, you will drive to Trinity cathedral Church. This church is the highest ranking Orthodox cathedral in Addis Ababa, Ethiopia. It was built to commemorate Ethiopia's liberation from Italian occupation and is the second most important place of worship in Ethiopia, after the Church of Our Lady Mary of Zion in Axum.

After an early breakfast, you will drive to Langano. Among the many interesting geographical features of the Great Rift Valley is Ethiopia's lakes region. These seven lakes are rich in nature and are particularly abundant with bird life. Lake Langano is the only one somewhat developed for tourism and safe for swimming, boating, water skiing, and fishing and just for recreation. Lakes Abijata and Shala constitute a national park of the same name. Although only a 3 km strip of land separates them, the two lakes are quite different. Shala, the southern lake is enclosed in a 266 m deep crater while Abijata is a large shallow brackish lake no more than 14 m deep. # JINKA AND TURMI TOUR PROGRAM

**TRANSPORT: FLIGHT & SURFACE**

## **Day 01: Fly Addis to Jinka (1 hr. & 10minute) & Visit the Jinka museum**

On this day, you will be transferred to the airport to catch your flight to Jinka. Jinka is one of the larger outposts in the area. Despite its location on the main road, the town of Jinka seems to exist in virtual isolation from the rest of Ethiopia. High, cool, and green, Jinka sits at the edge of the highland plateau, standing guard over the vast Omo Valley to its west. Upon arrival in Jinka, you will drive a short distance up into the hills to the South Omo Research Centre and Museum to inspect their collections of tribal artifacts and learn more about the interactions and history among tribes of the area. After your visiting, you will drive to the lodge.

### **Overnight at Eco Omo Lodge**

## **Day 02: Excursion to Mago, visit the Mursi Tribe (~ 140 km & ~ 3 hrs.) & drive to Turmi (~ 130 km & ~ 4 hrs.)**

This morning, you will take a day excursion to Mago National Park to visit the Mursi village. The Mursi are one of the most original ethnic groups. They live in very low huts made of straw leaves. The women like to wear terra cotta on their enormously stretched lower lips and ear lobes. The men are famous for their hairstyles.

The tribe is famed for their fierce warrior disposition and wildly decorative appearance, with large circular clay labrets that the women wear in the lower lip. The larger the lip plate, the greater the woman's value when she is married. She removes her plate for eating and sleeping. We may see some women, especially elder women, without their lip plates. They are easily distinguished by how their long, distended lips hang down from their mouths. Once done with the tour, you will drive to Turmi.

The Karo incorporate rich cultural symbolism into their rituals and use ornate body art, intricate headdress, and body scarification to emphasize beauty and status within their community. This small but lively tribe numbers under 1,000, but they are the main non-nomadic agriculturalist group in the Lower Omo Valley.

The Karo are differentiated from neighboring tribes by placing higher emphasis on body and face painting. They paint themselves daily with colored ochre, white chalk, yellow mineral rock, charcoal, and pulverized iron ore - all resources found in this area. Karo

Shecha is the uptown administrative center. Just two and a half miles away is Sikela, home to the commercial, industrial, and downtown residential areas.
